

Agrian Advisor & Documented Advisor allows crop advisors to focus on the field not on the paperwork.

Agrian Advisor & Documented Advisor automates the time-consuming process of recommendation writing, field mapping, and label checking. It is comprehensive and easy to use allowing crop advisors to write reliable crop product and nutrient recommendations checked against the industry's most comprehensive manufacture approved database.

Agrian Advisor

- ▶ Saves time by automatically importing sites from grower permits
- ▶ Saves time by generating accurate product recommendations fast
- ▶ Increases reliability by helping check recommendations against manufacture approved label data quickly
- ▶ Increases reliability by electronically transferring reports to reporting agencies (where applicable)
- ▶ Rely's on a comprehensive database consisting of over 4,300 products supported from over 190 manufacturers
- ▶ FREE GIS/GPS-mapping tools for your fields
- ▶ It's **free**, and accessible on the Web from any browser

Agrian Documented Advisor

Taking Agrian Advisor to the next level is Agrian Documented Advisor. Offering all of the features of Agrian Advisor **plus**...

- ▶ Automatic management of all food safety compliance documents
- ▶ Electronically transmit reports to food processors, food handlers and/or shippers
- ▶ Fax any document or work order at no additional charge directly from Agrian Documented Advisor account
- ▶ Provides the use of the Agrian Documented logo in all marketing materials
- ▶ Low annual fee
