

Battleship III

Registrant: Helena Agri-Enterprises, LLC

| GENERAL | | | |
|-----------------------------|---|--------------------------------|--|
| EPA Registration Number: | 228-453-5905 | Signal Word: | DANGER |
| CA Registration Number: | 228-453-AA-5905 | | |
| Active Ingredient: | 4.45 - 1-Methylheptyl Ester of Fluoxypyr 4.07 - Triethylamine Salt of 3,5,6-Trichloro-2-Pyridinyloxyacetic Acid 37.84 - Dimethylamine Salt of 2-Methyl-4-Chlorophenoxyacetic Acid | Application Methods: | Ground |
| Label Version: | AD 061516 | Mode of Action: | WSSA 4 |
| Physical State: | Liquid (9.45 lb / ga) | Toxic To: | Aquatic Organisms, Nontarget Plants |
| Product Type: | Herbicide | Rainfastness: | |
| Formulation Type: | Emulsifiable Concentrate OR Emulsion Concentrate | | |
| ADDITIONAL INFORMATION | | | |
| Federally Restricted: | No | | |
| Organic Certifications: | None | Other Certifications: | None |
| Posting Required: | No | Closed Mixing System Required: | All applications in All States/Provinces: Not required |
| Oral Notification Required: | No | Avoid Grazing: | Yes |
| CALIFORNIA | | | |
| Registration #: | 228-453-AA-5905 | CA Restricted: | Yes |
| CA NOI Required: | Yes | | |

PACKAGE TYPES

| | | |
|-------------------|------------------------|------------------------------|
| Bulk CARGOTK | Bulk TOTE (300 / Case) | 2.5 GA Package(s) (2 / Case) |
| 30 GA Package(s) | 250 GA Package(s) | 265 GA Package(s) |
| 275 GA Package(s) | | |

**Specific Notices will not be shown until a pest is selected.

SAFETY

| | |
|-----------------------------------|---|
| PPE Information: | Mixers, loaders, applicators, and other handlers, supporting any type of application to non-crop lands must wear: - long-sleeved shirt and long pants - protective eyewear (goggles or face shield) - chemical-resistant gloves (such as or made of any waterproof material) - shoes plus socks *After this product has been diluted in accordance with Directions for Use, safety glasses for protective eyewear can be worn. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining Personal Protective Equipment (PPE). If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. |
| Re-Entry PPE Information: | PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: Coveralls, waterproof gloves, shoes plus socks, and protective eyewear. |
| Transport Information: | UN Proper Shipping Name : Not regulated by DOT. Transport Hazard Class : None UN Identification Number : None Packaging Group : None Environmental Hazards : No information found Transport in Bulk : No information found Special Precautions for Transportation : No information found Freight Classification : Pesticides, NOI, Herbicides, Other than Poison (NMFC Item 155050, Sub 11, Class 70) |
| Response Number: | 800-424-9300 |
| Medical Number: | 877-325-1840 |
| SDS Hazard ID Signal Word: | Danger |

GENERAL NOTICE 1

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER / PELIGRO CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. See ENGINEERING CONTROLS STATEMENT for additional requirements. Engineering Controls Statement: When handlers use closed systems or enclosed cabs in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240 (d)(4-6), the handler PPE requirements may be reduced or modified as specified in the WPS. USER SAFETY RECOMMENDATIONS Users Should: - Wash hands, face and arms with soap and water before eating, smoking, drinking, or using the toilet. - Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. - Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. FIRST AID IF IN EYES - Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. - Call a poison control center or doctor for treatment advice. IF SWALLOWED - Call a poison control center or doctor immediately for treatment advice. - Have person sip a glass of water if able to swallow. - Do not induce vomiting unless told to do so by the poison control center or doctor - Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING - Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15 to 20 minutes. - Call a poison control center or doctor for treatment advice. HOT LINE NUMBER Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-325-1840 for emergency medical treatment information. NOTE TO PHYSICIAN Probable mucosal damage may contraindicate use of gastric lavage.

GENERAL NOTICE 2

ENVIRONMENTAL HAZARDS Drift or runoff may adversely affect non-target plants and may be hazardous to aquatic organisms in water adjacent to treated areas. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. MCPA has properties and characteristics associated with chemicals detected in groundwater. The use of this product in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Do not contaminate water when disposing of equipment washwater or rinsate. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

GENERAL NOTICE 3

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL BEFORE USING THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.** Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. This product should be used strictly in accordance with the drift and runoff precautions on this label in order to minimize off-site exposure. Low humidity and high temperatures increase the evaporation rate of spray droplets and therefore the likelihood of increased spray drift. Avoid spraying during conditions of low humidity and for high temperatures. **AGRICULTURAL USE REQUIREMENTS** Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 48 hours. **NON-AGRICULTURAL USE REQUIREMENTS** The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Do not enter or allow people (other than applicator) or pets on treatment area during application. Do not enter or allow others to enter the treated areas until spray has dried.

GENERAL NOTICE 4

SPRAY DRIFT MANAGEMENT Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment and weatherrelated factors determine the potential for spray drift. The applicator and the grower are responsible for considering all these factors when making decisions. Apply only as a medium or coarser spray (ASAE standard 572) or a volume mean diameter of 300 microns or greater for spinning atomizer nozzles. Apply only when the wind speed is 2 to 10 mph at the application site. Do not apply with a nozzle height greater than 4 feet above the crop canopy. This product is a broad-spectrum herbicide for control of actively growing annual and perennial broadleaf weeds. It is for use on established Ornamental Turf Lawns (Residential, Industrial and Institutional), Parks, Cemeteries, Athletic Fields, Roadsides and Golf Courses (Fairways, Aprons and Roughs) and similar turf areas; also for use on sod farms. Do not use on Golf Greens or Tees. This product may be applied to the following established turfgrass species listed on page 4. Note: This product may discolor and/or stunt turf that is not well-established or is stressed or weakened due to unfavorable climatic conditions, temperature extremes, drought, nematodes, or other factors which damage or weaken turf. Apply this product only to healthy, well-established turf that has a well-anchored root system. Do not apply this product to grass species not listed on this label unless potential turf injury can be tolerated. **USE PRECAUTIONS** Do not apply this product directly to, or otherwise permit drift or spray mist to come into contact with cotton, citrus, grapes, tobacco, vegetables, flowers, ornamental plants, shrubs, trees, and other desirable plants. Do not pour spray solutions near desirable plants. Avoid fine mists. Use lawn type sprayer with coarse spray as wind drift is less likely. Spray drift can be reduced by spraying when wind velocity is low, keeping spray boom as low as possible, using nozzles that deliver larger spray droplets and minimize the production of fine spray particles, and by using higher spray volumes and lower pressures. Applications should be made only when hazards from spray drift are at a minimum. Very small quantities of spray, which may not be visible, may seriously injure susceptible plants. Do not spray when wind is blowing toward susceptible crops or ornamental plants near enough to be injured. Do not apply to exposed roots of shallow rooted trees and shrubs. Maximum kill of weeds will be obtained from spring or early fall applications when weeds are actively growing. Do not apply more than 4 pints per acre per application. Mow newly seeded turf at least twice before treatment with this product. For optimum results: (1) Add a spray adjuvant, such as DYNE-AMIC for best results; (2) Use a water conditioning agent, such as, QUEST for high PH and water hardness; (3) Avoid applying during excessively dry or hot periods unless irrigation is used; (4) Turf should not be mowed 1 to 2 days before and following application; (5) Reseed no sooner than 3 to 4 weeks after application of this product.

GENERAL NOTICE 5

Standard Volume Broadcast Applications: Apply 3 to 4 pints of this product in enough water to deliver 20 to 200 gallons of total spray mix per acre (0.5 to 5 gallons spray per 1,000 square feet). Higher application volumes may be used when this product is tank mixed with liquid fertilizers. Low Volume Broadcast Applications: Apply 3 to 4 pints of this product in enough water to deliver from 5 to 40 gallons of total spray mixture per acre. Use low pressures and application equipment capable of delivering a uniform droplet size that can wet the weed leaf surface. Targeted Zone Applications or Spot Treatment Using Portable Sprayers: Mix 0.5 to 1.0 ounce of this product in enough water to make one gallon of spray and apply at any time broadleaf weeds are actively growing. Target plants should be sprayed to wet but not beyond point of runoff.

GENERAL NOTICE 6

USE RESTRICTIONS - Do not apply this product directly to, or otherwise permit drift or spray mist to come into contact with cotton, citrus, grapes, tobacco, vegetables, flowers, ornamental plants, shrubs, trees, and other desirable plants. - Do not pour spray solutions near desirable plants. - Do not spray when wind is blowing toward susceptible crops or ornamental plants near enough to be injured. - Do not apply to exposed roots of shallow rooted trees and shrubs. - Do not apply more than 4.2 pints of product (1.5 lbs total ae) per acre per application. - Do not apply more than 2 applications per year with a minimum retreatment interval of 21 days. - The maximum use rate for most warm season grasses is 3 pints per acre.

GENERAL NOTICE 7

FOR USE BY TURF MAINTENANCE PERSONNEL, LANDSCAPING OR COMMERCIAL APPLICATORS ONLY.

SPECIAL INSTRUCTIONS

Fill spray tank with water. Start agitation and slowly add the recommended amount of concentrate. Maintain continuous agitation after mixing and during application. If this product is allowed to stand in tank for extended periods of time, some separation may occur. Reagitate before use.
