### DIRECTIONS FOR USE

1. Agitate or mix well before use.
2. Refer to usage chart for recommended application rate.
3. Always add colorant to water, not to chemical concentrate.
4. Always check compatibility of all components in the treatment slurry prior to large scale mixing.
5. Mix the treatment solution for 10 minutes following the addition of the colorant.

**Do not apply to grain used for food or feed purposes or processed for oil.**

A spray shield is recommended for application if over spray or drift is a potential problem.
