

Dyna-Start™ PBC Technical Information

Dyna-Start PBC is a soybean seed treatment co-pack containing:

1. Consensus®
2. Dyna-Start® Rhizobia Liquid
3. Dyna-Start Extender Liquid

	Application rates			Agitate lightly if not used within 15 minutes
Component	mL / 45.4 kg seed	Fl oz/100 lbs seed	Fl oz/50 lbs or 140K seed	Mixing order
Dyna-Start Rhizobia Liquid	34	1.16	0.58	First
Dyna-Start Extender Liquid	10	0.34	0.17	Second
Consensus	12	0.40	0.20	Last
TOTAL	56	1.90	0.95	Combined Density 8.87 Lbs/Gal

Inoculant specifications	1×10^{10} cfu/ml <i>Bradyrhizobium japonicum</i>
--------------------------	---

Case Configurations	
1 x 400 Treats 400 Units Soybean Seed Total volume 380 fl oz (2.97 gal)	5 x 2 x 40 Treats 400 Units Soybean Seed Total volume 380 fl oz (2.97 gal)
<p>One case contains:</p> <p>Dyna-Start Rhizobia liquid (232 fl oz bladder)</p> <p>Dyna-Start Extender liquid (68 fl oz bottle)</p> <p>Consensus (80 fl oz bottle)</p> <div style="text-align: center;">  <p>Treats 400 x 50 lbs seed</p> <p>Inoculant Liquid</p> <p>Extender Consensus</p> </div>	<p>One case contains 5 boxes:</p> <div style="text-align: center;">  <p>Treats 80 x 50 lb units</p> <p>Treats 40 x 50 lbs seed</p> <p>Inoculant Liquid</p> <p>Extender Consensus</p> </div> <p>Each box contains:</p> <p>2 bladders Dyna-Start Rhizobia liquid (each 23.2 fl oz) <i>(1 bladder treats 40 units. 2 bladders treat 80 units)</i></p> <p>2 bottles Extender liquid (each 6.8 fl oz) <i>(1 bottle treats 40 units. 2 bottles treat 80 units)</i></p> <p>2 bottles Consensus (each 8 fl oz) <i>(1 bottle treats 40 units. 2 bottles treat 80 units)</i></p>
