WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

FAILURE TO STRICTLY FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN INJURY TO CROPS, INEFFECTIVE PEST CONTROL, AND/OR ILLEGAL RESIDUES.

This label for AbbA Ultra Miticide/Insecticide expires and must not be distributed or used in accordance with this SLN Registration after December 31, 2027.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Follow all applicable directions, restrictions, and precautions on this Supplemental label and the main EPA-registered label.

This label and the federal label for this product must be in the possession of the user at the time of pesticide application.

CROP USE DIRECTIONS: ALFALFA GROWN FOR SEED

Apply AbbA Ultra Insecticide/miticide when spider mites first appear. Do not apply more than 16 fluid ounces or more than two (2) applications of AbbA Ultra Insecticide/miticide per acre in any growing season. Do not apply a second application within 21 days of the last treatment.

Ground Application:

Apply 4-8 fluid ounces of product (0.009-0.019 pounds of active ingredient) per acre by ground application in a minimum of 20 gallons of water per acre.

Aerial application:

Apply 6-8 fluid ounces of product (0.014-0.019 pounds of active ingredient) per acre by aerial application in a minimum of 10 gallons of water per acre.

Notes:

(1) Alfalfa seed from treated fields may not be used for growing sprouts for humans or animal consumption.

(2) Producers of alfalfa seed who use this product, or cause the product to be used on a field they operate, are required to inform, in writing, conditioners receiving seed produced on fields treated with Abba Ultra Miticide/Insecticide. A copy of the labeling must be given by the producer to the conditioner.

Processed seed must be labeled "Not for human or animal consumption" at the processing plant. The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

Precautions for Bees:

This product is toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Apply in the evening after bees have stopped foraging or in early morning before bees begin foraging.
