

PHASE®

**SURFACTANT — ANTIFOAMING AGENT
ENHANCES COVERAGE
IMPROVES CONTACT**

Principal Functioning Agents:

Methylated esters of fatty acids, alcohol ethoxylate, and polyether modified polysiloxane 100%

TOTAL 100%

Contains an organosilicone surfactant

CA Reg. No. 34704-50037; WA Reg No. 34704-05007

KEEP OUT OF REACH OF CHILDREN WARNING

Hazard and Precautionary Statements: Causes eye irritation. May be harmful if swallowed, in contact with skin, or if inhaled. Wash hands thoroughly after handling. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.

PERSONAL PROTECTIVE EQUIPMENT: Wear protective gloves/eye protection.

FIRST AID: If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PRODUCTS

Loveland Products, Inc.® • PO Box 1286 • Greeley, CO 80632-1286

GENERAL: PHASE® is a blend of methylated esters of fatty acids and organosilicone surfactant. The organosilicone surfactant enhances the spread of the water portion of a spray solution to yield a more uniform coverage. Methylated esters of fatty acids enhance coverage and contact with foliage of oil components.

This product can be used in the following settings: Agricultural, Aquatic (Wetlands) Forestry, Industrial, Municipal, Non-Cropland, Ornamental, Rights-of-Way and Turf.

DIRECTIONS FOR USE: PHASE should be utilized with agricultural chemicals and biological controls to improve coverage. In aerial or ground equipment: Fill spray tank 1/2 full with water. Begin agitation, add selected agricultural chemicals in proper sequence. Eliminate any existing foam with approved defoamer (UNFOAMER®). To minimize foam from organosilicone surfactant, fill tank to desired water volume before adding PHASE.

SUGGESTED USE RATE: 1 to 4 pints / 100 gallons

Increase rate of PHASE as spray volume decreases to obtain desired coverage. Some pesticides have stated adjuvant use rates. In all cases the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent), adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.
