# ProHibit

## GENERAL INFORMATION

ProHibit is a 98% active premium blend of organosilicones, methylated vegetable oil and non-ionic surfactants. It provides superior spreading, penetration and activation of herbicides, fungicides, insecticides and defoliant. Because ProHibit contains organosilicones, it offers faster, more uniform distribution of active material on the leaf surface than conventional spreaders. The vegetable oil ensures complete penetration through the waxy leaf cuticle.

## DIRECTIONS FOR USE:

Preparation of Spray Material.

1. Fill spray or mix tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide.
3. Add the required amount of ProHibit and continue agitation until a uniform mixture is obtained.

## FIRST AID:

**IF IN EYES:**-Immediately flush eyes with plenty of water, lifting the eyelids and rinse for 15-20 minutes. Remove contact lenses, if present, then continue rinsing. If eye irritation persists get medical attention or call Poison Control Center for advise.

**IF ON SKIN OR HAIR:**-Take off contaminated clothing. Rinse skin immediately with plenty of water for 10-15 minutes. Get medical attention if irritation develops or persists. Wash contaminated clothing before reuse.

**IF INHALED:**-Move person to fresh air and keep at rest in a position comfortable for breathing if they feel unwell. If person is not breathing, call 911 or an ambulance, then give artificial respiration, mouth to mouth if possible Call poison control center or doctor for treatment advice.

**IF SWALLOWED:**-Call a poison control center or doctor immediately for treatment advice. Rinse Mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

## PERSONAL PROTECTIVE EQUIPMENT

### USER SAFETY RECOMMENDATIONS:

Wear long sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eye wear (goggles or face shield), and shoes plus socks. User should wash hands before eating, drinking, chewing gum, using tobacco or using toilet. Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing.

**NOTE:** Maintain constant agitation of spray mixture during standing and application to assure uniform pesticide application.

4. Add the remaining volume of water and mix contents thoroughly.

## DILUTE RATES:

Ground Application: Use 3 to 5 pints of ProHibit per 100 gallons of spray mix.

Aerial Application: Use 4 to 16 pints of ProHibit per 100 gallons of spray solution in combination with the recommended pesticide.

## CONCENTRATED RATES:

Ground Application: Use 4 to 8 ounces of ProHibit per acre in 10 gallons of spray solution.

Aerial Application: Use 6 to 24 ounces of ProHibit per acre in 10 gallons of spray solution.

**COMPATIBILITY:** This product may be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides and insecticides now on the market.

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Follow proper procedures for the disposal of spray solutions. Rinse and dispose of empty containers according to approved local practices.

**CONDITIONS OF SALE:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
