

FIFRA Section 2(ee) Recommendation

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF TEXAS

EPA Reg. No. 73049-45

FOR INCREASING FRUIT SET ON APPLE AND EUROPEAN PEAR CULTIVARS

This FIFRA Section 2(ee) Recommendation Expires December 31, 2026

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This recommendation is made as permitted by FIFRA Section 2(ee) and has not been submitted to or approved by the U.S. Environmental Protection Agency. This 2(ee) recommendation contains directions for use, which do not appear on the package label and must be in the possession of the user at the time of ReTain® Plant Growth Regulator Soluble Powder application. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label.

Crop	Objective/Benefit	Application Timing/Use Directions
<ul style="list-style-type: none">AppleEuropean Pear	To increase fruit set.	Apply one half to one pouch of ReTain per acre, as a single or split applications beginning from pink stage on apple and white bud stage on pear, up to full bloom. Applications made prior to pink/ white bud stage or after full bloom will significantly reduce efficacy of the treatment. Do not apply more than one pouch per acre for increasing fruit set. Do not apply after petal fall.

For all other use directions, including timing of applications, refer to the EPA registered label.
